

Berac - Spring Barley

EAR

- Ear - no. of rows : 2
- Ear - glaucosity : medium to strong
- Ear - attitude : semi-drooping
- Ear - awn length compared to ear : longer
- Ear - density : semi-lax to lax

PIGMENT

- Pigment - awns : present
- Pigment - lemma nerves : present
- Pigment - flag leaf auricles : present

FIRST RACHIS SEGMENT

- First rachis segment - length : long to medium

STERILE SPIKELET

- Sterile spikelet - glume + awn length : medium to short

GRAIN

- Grain - rachilla hair type : short
- Grain - rachilla length : long
- Grain - inner lateral nerve spicules : absent or present, 1 to 3 per grain
- Grain - ventral crease hairs : absent
- Grain - lodicules : collar

ADDITIONAL CHARACTER(S)

- Additional character(s) - sheath hairs : absent

FIRST RACHIS SEGMENT

- First rachis segment - collar type : Platform

STERILE SPIKELET

- Sterile spikelet - lemma tip : rounded

FLAG LEAF

- Flag leaf - size : medium width, medium length
